Community Interest Groups**
Expanded variety and space for community activities at City Square Mall

Sky Park (Level 6)

Singapore, 10 February 2014 – As part of its ongoing commitment towards a more social and active community, City Square Mall, owned and managed by City Developments Limited (CDL), will now offer its Sky Park, at no additional cost, as a venue for community events and activities. The Sky Park, along with Fountain Square and City Green, are the featured areas that are available for complimentary use by community-related interest groups, providing the community more ways to enjoy Singapore's first eco-mall.

Sky Park

Sky Park, a 4,000 square foot outdoor space located at Level 6, can hold up to 250 people. Located on high grounds, the venue provides a scenic view of the surrounding areas. The greenery around the Sky Park, which is irrigated by rainwater to conserve water, adds to the relaxed ambience, away from the hustle and bustle of the urban landscapes.

Fountain Square

Fountain Square, a 3,900 square foot sheltered outdoor space located at Basement 1, can hold up to 500 people for a standing event. Designed and developed by CDL in consultation with the National Parks Board (NParks), the Fountain Square is managed by CDL on behalf of NParks. The venue is conveniently positioned beside the underground link to Farrer Park MRT station and an energy efficient fan, measuring 7.32 metres in diameter, provides a cool environment from the heat for activities held there. In addition, Fountain Square is also home to Play Fountain, a water-play feature that operates daily with interactive musical fountain shows between 12pm to 2pm and 6pm to 10pm - when events are not held at the premises.

City Green (Level 1)

City Green

City Green, a 49,000 square foot urban park located on Level 1, can host up to 150 people in an alfresco setting. Similar to the Fountain Square, the park is also managed by CDL on behalf of NParks. A star attraction of the park is an eco-playground that features equipment constructed from wood certified by the Forest Stewardship Council, a certification system that promotes responsible forest management worldwide.
