

SINGAPORE'S 1ST ECO-FRIENDLY MALL

NOW WITH MORE ECO-FRIENDLY FEATURES

Hi, I'm Mother Earth. Welcome to the refreshed City Square Mall.

If I were to go shopping, it would be here. City Square Mall has been refurbished with more eco-friendly features to make our shopping spree even more sustainable. Over 200 stores. Direct MRT access. Green features at every level, inside and out.

It's more than a mall. It's a guilt-free shopping spree for all.

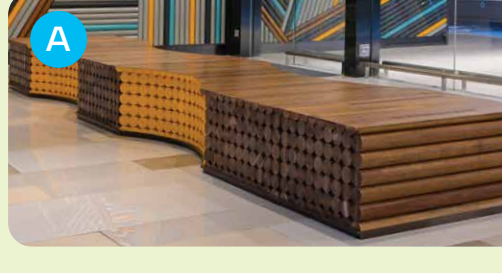

CALLING ALL EARTHLINGS. STEP IN. GEEK OUT.

Inside City Square Mall, waste hardly goes to waste. As I stroll floor by floor, I see hope tucked into every corner – chopsticks, PET bottles and even bubble wrap – all reborn as wall claddings. Every level plays its part.

ECO FEATURES

Walk with me through every level and celebrate earth-friendly wins at every eco stop.

B2–L4, BENCHES MADE FROM REPURPOSED TIMBER GRAB BARS

Tired from all the shopping? Take a break on these benches. Once timber grab bars, now given a new mission: to support your soles and my hopes for a brighter future.

B1–B4, BAMBOO CHOPSTICK WALL CLADDINGS

Used chopsticks now pick up a second life! Thanks to our lovely vendors, each wall panel is crafted from recycled bamboo chopsticks that are compacted, carbon-stored and reimagined.

L1–L3, RECYCLED PET PLASTIC WALL CLADDINGS

The nice folks here turned used PET bottles into something better. These wall claddings are not just made from recycled plastic, they are splash-resistant, anti-bacterial and self-cleaning.

L4–L6, BUBBLE WRAP WALL CLADDINGS

You know me, I hate waste. That's why these vibrant wall panels are made from upcycled bubble wrap. Durable, waterproof and one-of-a-kind, they turn trash into treasure.

L1 CITY GREEN PARK, CDL ECOTRAIN

Just outside the mall is a train that carries our future. Step into the CDL EcoTrain – a retired MRT cabin – now reborn as an educational space. Powered by solar. Brimming with facts and hands-on activities for curious minds.

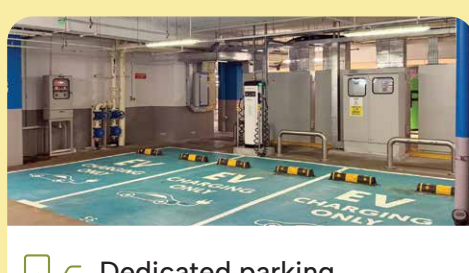

L1 CITY GREEN PARK, CDL MICROFOREST

Micro forest. Major impact. The CDL MicroForest is Singapore's first research-driven regenerative tropical microforest that's built to cool the heat, clean the air and bring biodiversity back. It's not just greenery. It's healing, from the ground up.

GREEN FACILITIES & AMENITIES

The considerate folks at City Square Mall don't just recycle waste. They rethink how the entire mall runs.

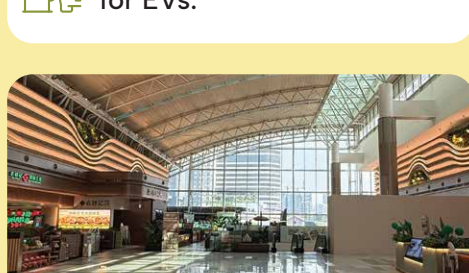

Dedicated parking for EVs.

Eco-digester turns food waste into zero waste.

Recycling and e-waste bins throughout the building.

Energy-efficient lighting and air-conditioning.

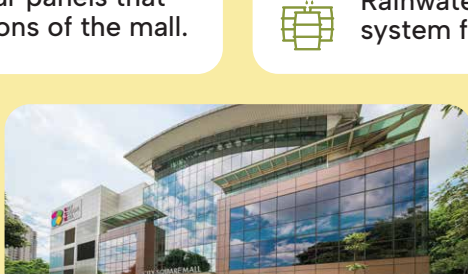

Rooftop solar panels that power portions of the mall.

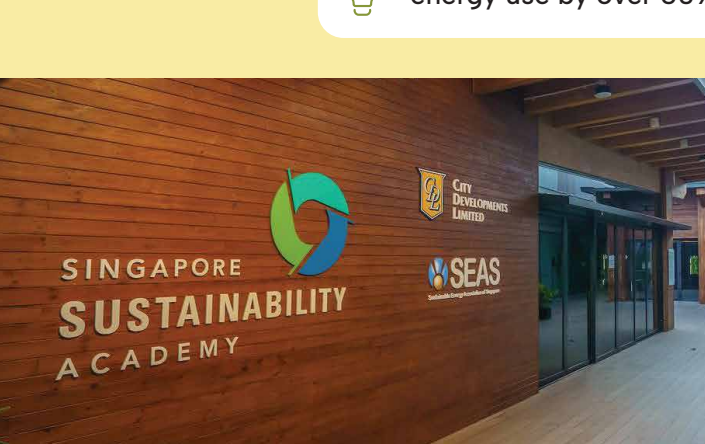

Rainwater harvesting system for landscaping.

LED facade lighting cuts energy use by over 50%.

Double-glazed glass keeps heat out.

Singapore Sustainability Academy (SSA)

Up on Level 6 sits my top priority – real action for a greener tomorrow. The Singapore Sustainability Academy brings together industries, youths and communities to learn, share and build partnerships that bring the Singapore Green Plan 2030 to life. If you care about climate action, this is your seat at the table and your voice in shaping our future. Visit them at cdlsustainability.com/singapore-sustainability-academy

TENANTS

You don't need a climate summit to save me. Sometimes, all it takes is a shopping trip. Pick up dinner. Chase a sale. Because the tenants here are on Team Earth.

DECATHLON

Got old sports gear? Bring it to Decathlon. They'll give it a second life.

Learn more about how our tenants are doing their part for Earth.

FairPrice

At FairPrice's most sustainable outlet, you can shop here to help me breathe easier with energy-efficient LED lighting, CO₂ refrigerants and 400+ eco-friendly products.

SHOPPERS

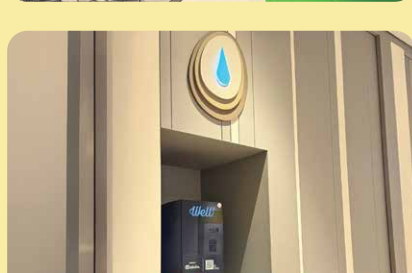

Let's go on a saving spree! You can do your part just by visiting these spots while shopping.

B4 Travelator Lobby, Green & Social Good Space

Save me and help the less fortunate by visiting the space.

- Drop your e-waste into the ALBA 3-in-1 bin. That includes batteries, light bulbs and small tech devices.
- Bag up your preloved clothes, wearable shoes and old linens for the Greensquare Textile Bin.

B2 Water Refill Station

- Fill up. Drink up. Skip the single-use bottles.
